

Tracy Frost joined the Department of Defense (DoD) Office of Manufacturing and Industrial Base Policy (MIBP) in 2015. Ms. Frost supports the Director of Manufacturing Technology with the Defense-wide Manufacturing Science and Technology program, as well as the DoD Manufacturing Innovation Institutes.

Previously, Ms. Frost served as the DoD SBIR/STTR Programs Administrator out of the DoD Office of Small Business Programs where she implemented innovative initiatives to assist the small business community transition viable technologies to the military and commercial marketplace.

Before joining OSBP, Ms. Frost managed the Office of Naval Research's SBIR Program. She consistently increased the number of SBIR firms that transitioned into Phase III each year by increasing the involvement of Acquisition enabler science and technology programs. Prior to small business involvement, Ms. Frost served as a science and technology Program Manager for over 10 years in the areas of unmanned systems and ship logistics.

Tracy has a B.S. in Ocean Engineering from Florida Atlantic University and an M.S. in Engineering Management from George Washington University.
