

## **Janet J. Nash**

Janet Nash is the Vice President of F-35 Production Operations for Lockheed Martin Aeronautics. She has oversight of production operations for the F-35 Lightning II program in Fort Worth, Texas and Marietta, Georgia as well as international production in Cameri, Italy and Nagoya, Japan.

Previously, Janet was Vice President of Aero Production Operations, Vice President of Manufacturing for C-130J Super Hercules, F-22 Raptor, and F-16 Fighting Falcon aircraft production programs. In these roles, Janet was responsible for the build, modification, flight acceptance and delivery of aircraft along with the manufacturing support of flight test and development of new derivatives at the Marietta, Georgia, and Fort Worth, Texas, facilities. This includes all elements of manufacturing – safety, quality, delivery, cost and compliance.

Janet graduated from the Georgia Institute of Technology with a Bachelor of Industrial and Systems Engineering degree and completed the University of Tennessee's Executive Education Program.

She has served as Industry Liaison with Southern Polytechnic Institute and member of the American Society for Quality. She is currently serving on Carter BloodCare Board of Directors.
