

**Mr. Adarryl Roberts** is Program Executive Officer (PEO) DLA Information Operations, Defense Logistics Agency.

As the PEO, Mr. Adarryl Roberts is responsible for the management and oversight of DLA's Major Automated Information Systems programs and special interest programs.

He is the corporate provider of acquisition management services and provides overall direction and guidance for the development, acquisition, testing, systems integration, product improvement, and fielding for assigned DLA programs.

DLA's portfolio also includes acquisition projects and programs which Mr. Roberts manages on behalf of DOD wide sponsors.

Before being appointed as the PEO, Mr. Adarryl Roberts served as the Portfolio Manager, Enterprise Sourcing, Medical, and Contingency (ESMC), DLA Information Operations, Program Executive Office responsible for oversight and acquisition expertise across the life cycle in support of the DoD and DLA user communities for 16 programs and 35 applications.

Prior to his tenure as the ESMC Portfolio Manager, Mr. Roberts held a variety of increasingly responsible positions at DLA, including Director of the Business Systems Center of Excellence (BSCoE) working with Industry IT Business System partners within DOD to look at innovative ways to develop and sustain business systems and Program Manager, Wide Area Workflow (WAWF).
