

Ronnie Chronister

Senior Vice President, Contracts

Chronister has 32 years' experience in Army missile, space, and aviation programs, having served in a variety of senior-level Army positions. These include deputy to the commander, U.S. Army Space and Missile Defense Command; deputy to the commanding general, U.S. Army Aviation and Missile Command; executive director, Integrated Materiel Management Center, U.S. Army Aviation and Missile Command; and a variety of positions in the Aviation and Missile Research, Development and Engineering Center.

He served as the senior civilian in each of these organizations that were comprised of workforces up to 11,000 personnel and budgets in excess of \$4 billion annually with responsibilities that

included the operation, capability, development, and materiel development of all Army space and missile defense systems, as well as the lifecycle management, sustainment, foreign military sales, and all facets of engineering from research to sustainment engineering of all Army aviation and missile systems.

Chronister has been recognized for his leadership and technical abilities with such honors as induction into the Alabama Engineering Hall of Fame and selection as a Distinguished Engineering Fellow, University of Alabama.

His awards include Presidential Distinguished Rank Award, Decoration for Exceptional Civilian Service (2012, 2014), Secretary of the Army Diversity and Leadership Award, and Secretary of the Army Small Business Award.

Chronister holds a bachelor's degree in civil engineering from the University of Alabama and a master's degree in program management from the Naval Postgraduate School where he graduated with distinction.

Dynetics provides responsive, cost-effective engineering, scientific, and IT solutions to the national security, cybersecurity, space, and critical infrastructure sectors.
