

Neil A. Graf

Office of Naval Research

Manufacturing Technology Program Lead / Program Officer

Mr. Neil Graf serves as the Navy Manufacturing Technology (ManTech) Program Lead for the Office of Naval Research (ONR). In this role, he oversees the financial and technical execution of the Manufacturing Technology program, develops the annual investment strategy, and coordinates with key stakeholders. Mr. Graf also serves as the Navy principal for the Joint Defense Manufacturing Technology Panel (JDMTP), which coordinates ManTech programs across the Department of Defense.

Mr. Graf is also the Program Officer for the Composites Manufacturing Technology Center (CMTCC), a position he has held since 2004. He also serves as the Program Officer for the Energetics Manufacturing Technology Center (EMTC). His responsibilities include developing new projects, executing ongoing projects, fiscal oversight, and coordination with industry and Navy program offices. Mr. Graf previously served as the Program Officer for the metalworking and shipbuilding/advanced manufacturing centers.
